

EDUCATION

2018 - 2021

BA (Hons) in Product Design

Goldsmiths, University of London

First Class Honours &

Ngee Ann Kongsi Scholarship Recipient

2013 - 2016

**Diploma in Business Innovation
& Design**

Singapore Polytechnic

2016

**Certificate in Software Programming
& Applications**

Singapore Polytechnic

SKILLSET

- ★ UX Design
- ★ Design Thinking
- ★ Industrial Design
- ★ Requirement Gathering
- Axure RP
- Figma
- Rhinoceros 3D
- KeyShot
- Unity
- QGIS
- Polarion ALM
- Photoshop & Illustrator

EXPERIENCES

06/2025 - Present

Systems Solution Engineer

Thales Group

Lead UIUX requirement gathering sessions for a C2 project for a major client and completed comprehensive documentation. Ensuring traceability of requirements, from contractual clauses to user stories via Polarion ALM.

06/2024 - 05/2025

Design Engineer

Thales Group

Designing command & control systems at the Public Security Centre of Excellence in Thales. Demonstrated the viability of new digital twin solutions by balancing technical feasibility and user experience. Performed 3D modelling & map generation activities.

08/2023 - 02/2024

Design Innovation Intern

Thales Group

Served as the main UIUX designer for a high resolution prototype for situational awareness to allow multiple agencies within Ministry of Home Affairs to share a Common Situational Picture for quicker responses and operational efficiencies. Planned and facilitated Design Thinking workshops for external clients and stakeholders to identify needs and capability gaps with Thales Digital Factory.

02/2023 - 08/2023

Industrial Designer

OoB Design

Played a pivotal role in the new startup by going through market research, ideation, 3D visualization of office furniture concepts. Participated in the conceptual proposal of a new office chair design, which was launched as Goodtone's Kinetic Air.

06/2021 - 02/2023

Industrial Designer

Arte Oro

Designed high jewellery pieces and managed the full production cycle from conceptualization to manufacturing, while leveraging on innovative materials and Gen-AI to create unique pieces. Established an in-house wax 3D printing capability.

04/2015 - 08/2015

UX Designer

PSD, Prime Minister's Office

Proposed new services and facilities to alleviate future problems of Singaporeans, identified through trends and user interviews conducted with members of the public.

04/2014 - 02/2015

UX Designer

National Healthcare Group Polyclinics

Redesigning the Polyclinic Experience: Proposed innovative system designs for a new polyclinic, by identifying stakeholders and pain points through ethnographic research. Outcomes on patient wayfinding were implemented in the new Ang Mo Kio polyclinic.
